**Ventilation:** Local exhaust or containment.

**Clothing:** Gloves, coveralls, apron, boots as necessary to prevent skin contact as needed.

**Eye:** Safety glasses are recommended.

**Exposure Guidelines:** OSHA and ACGIH suggest that exposure to any dust or mist be kept below the level of a nuisance particulate.

**Other:** Open wounds or skin surface disruptions should be covered with a chemical resistant patch to minimize absorption risks. Clean clothing should be worn daily to avoid possible long-term build up of the product leading to chronic overexposure. Safety shower, eye wash fountain, and washing facilities should be readily available.
